QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2022

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-40103

CARTESIAN GROWTH CORPORATION
(Exact name of registrant as specified in its charter)

Cayman Islands
(State or other jurisdiction of
incorporation or organization)

N/A
(I.R.S. Employer
Identification No.)

505 Fifth Avenue, 15th Floor
New York, New York
(Address of principal executive offices)

10017
(Zip Code)

(212) 461-6363
(Registrant's telephone number, including area code)

N/A
(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Units, each consisting of one Class A Ordinary share and one-third of one warrant	GLBLU	The Nasdaq Stock Market LLC
Class A Ordinary Shares, par value \$0.0001 per share	GLBL	The Nasdaq Stock Market LLC
Warrants, each whole warrant exercisable for one Class A Ordinary Share at an exercise price of \$11.50	GLBLW	The Nasdaq Stock Market LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer
Non-accelerated filer

Accelerated filer
Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of May 13, 2022, there were 34,500,000 Class A ordinary shares, par value \$0.0001 per share, and 8,625,000 Class B ordinary shares, par value \$0.0001 per share, issued and outstanding.

CARTESIAN GROWTH CORPORATION
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

Note 1 — Organization and Business Operations

Cartesian Growth Corporation (the “Company”) was incorporated as a Cayman Islands exempted company on December 18, 2020. The Company was incorporated for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or engaging in any other similar business combination with one or more businesses (the “Business Combination”).

As of March 31, 2022, the Company had not commenced any operations. All activity through March 31, 2022 relates to the Company’s formation and its initial public offering (the “IPO”) which is described below and identifying a target company for a Business Combination. The Company will not generate any operating revenues until after the completion of a Business Combination, at the earliest. The Company generates non-operating income in the form of interest income from the proceeds derived from the IPO.

The Company’s sponsor is CGC Sponsor LLC, a Cayman Islands limited liability Company (the “Sponsor”).

On February 26, 2021, the Company consummated the IPO, including the full exercise of the over-allotment option by the underwriters on February 23, 2021, of 34,500,000 units (the “Units” and, with respect to the Class A ordinary shares and warrants included in the Units, the “Public Shares” and “Public Warrants”, respectively), at \$10.00 per Unit, generating gross proceeds of \$345,000,000, which is further discussed in Note 3. Each Unit consists of one Class A ordinary share and one-third of one redeemable warrant to purchase one Class A ordinary share at a price of \$11.50 per whole share. The registration statements on Form S-1 (File Nos. 333-252784 and 333-253428) for the Company’s IPO were declared effective by the U.S. Securities and Exchange Commission (the “SEC”) on February 23, 2021.

Simultaneously with the closing of the IPO, the Company consummated the sale of 8,900,000 warrants (the “Private Warrants,” and together with the “Public Warrants,” the “Warrants”), at a price of \$1.00 per Private Warrant, in a private placement to the Sponsor, generating gross proceeds of \$8,900,000, which is further discussed in Note 4.

Transaction costs of the IPO amounted to \$19,540,060 consisting of \$6,900,000 of underwriting commission, \$12,075,000 of deferred underwriting commission, and \$565,060 of other offering costs.

Following the closing of the IPO on February 26, 2021, \$345,000,000 (or \$10.00 per Unit) of the net offering proceeds of the sale of the Units and the sale of the Private Warrants was placed in a trust account for the benefit of the Company’s public shareholders (the “Trust Account”), with Continental Stock Transfer & Trust Company acting as trustee. The proceeds in the Trust Account may be invested in U.S. government treasury bills with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act that invest only in direct U.S. government treasury obligations. Except with respect to interest earned on the funds held in the Trust Account that may be released to the Company to pay its taxes, if any, the funds held in the Trust Account will not be released from the Trust Account until the earliest to occur of: (i) the completion of an initial Business Combination, (ii) the redemption of the Public Shares if the Company is unable to complete its initial Business Combination by February 26, 2023, subject to applicable law, and (iii) the redemption of any Public Shares properly tendered in connection with a shareholder vote to amend the Company’s amended and restated memorandum and articles of association (a) to modify the substance or timing of the Company’s obligation to redeem 100% of the Public Shares if it does not complete its initial Business Combination by February 26, 2023 or (b) with respect to any other provision relating to shareholders’ rights or pre-initial business combination activity.

The Company will provide the holders of its outstanding Public Shares (the “public shareholders”) with the opportunity to redeem all or a portion of their Class A ordinary shares upon the completion of the initial Business Combination either (i) in connection with a general meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek shareholder approval of a proposed Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The public shareholders will be entitled to redeem their shares at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account calculated as of two business days prior to the consummation of the initial Business Combination, including interest earned on the funds held in the Trust Account and not previously released to the Company to pay its taxes, if any, divided by the number of then outstanding Public Shares. The amount in the Trust Account is initially anticipated to be \$10.00 per public share. The per share amount the Company will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions the Company will pay to the underwriters.

[Table of Contents](#)

The Company will have until February 26, 2023 to complete the initial Business Combination (the “Combination Period”). If the Company is unable to complete the initial Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account (less tax payable and up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish public shareholders’ rights as shareholders (including the right to receive further liquidation distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company’s remaining shareholders and the Company’s board of directors, liquidate and dissolve, subject in the case of clauses (ii) and (iii) to the Company’s obligations under Cayman Islands law to provide for claims of creditors and in all cases subject to the other requirements of applicable law.

The Company’s initial shareholders, officers and directors have agreed to (i) waive their redemption rights with respect to their founder shares (as described in Note 3) and any Public Shares purchased during or after the IPO, in connection with the completion of the initial Business Combination, (ii) waive their rights to liquidating distributions from the Trust Account with respect to their founder shares if the Company fails to complete the initial Business Combination within the Combination Period, although they will be entitled to liquidating distributions from the Trust Account with respect to any Public Shares they acquired during or after the IPO if the Company fails to complete the initial Business Combination within the prescribed time frame, and (iii) vote any founder shares held by them and any Public Shares purchased during or after the IPO (including in open market and privately-negotiated transactions) in favor of the initial Business Combination. The Sponsor has agreed that it will be liable to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account.

This liability will not apply with respect to any claims by a third party who executed a waiver of any and all rights to seek access to the Trust Account and except as to any claims under the Company’s indemnity of the underwriters of the IPO against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the “Securities Act”). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, then the Sponsor will not be responsible to the extent of any liability for such third-party claims. The Company has not independently verified whether the Sponsor has sufficient funds to satisfy its indemnity obligations and the Company has not asked the Sponsor to reserve for such indemnification obligations. Therefore, the Company cannot assure you that the Sponsor would be able to satisfy those obligations. As a result, if any such claims were successfully made against the Trust Account, the funds available for the initial Business Combination and redemptions could be reduced to less than \$10.00 per public share. In such event, the Company may not be able to complete the initial Business Combination, and the public shareholders would receive such lesser amount per share in connection with any redemption of the Public Shares. None of the Company’s officers or directors will indemnify the Company for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

Proposed Business Combination

Business Combination Agreement

On September 19, 2021, the Company, Tiedemann Wealth Management Holdings, LLC, a Delaware limited liability company (“TWMH”), TIG Trinity GP, LLC, a Delaware limited liability company (“TIG GP”), TIG Trinity Management, LLC, a Delaware limited liability company (“TIG MGMT” and, together with TIG GP, the “TIG Entities”), Alvarium Investments Limited, an English private limited company (“Alvarium” and, together with TWMH and the TIG Entities, the “Target Companies”), Rook MS LLC, a Delaware limited liability company and Alvarium Tiedemann Capital, LLC, a Delaware limited liability company (“Umbrella”) entered into a business combination agreement (as may be amended, supplemented, or otherwise modified from time to time, the “Business Combination Agreement”), pursuant to which the Company will hold Umbrella, a newly formed Delaware limited liability company for purposes of effecting the transactions contemplated by the Business Combination Agreement, which will hold the businesses of the Target Companies.

On February 11, 2022, the Company, TWMH, the TIG Entities, Alvarium, Umbrella Merger Sub and Umbrella entered into Amendment No. 1 to the Business Combination Agreement (the “Amendment”), solely to (a) amend Section 12.01(b) of the Business Combination Agreement for the purpose of extending the Outside Date, as such term is used in the Business Combination Agreement, to July 29, 2022 and (b) amend the form of Registration Rights and Lock-up Agreement attached as Exhibit F of the Business Combination Agreement for the purpose of providing that the General Lock-up Period, as such term is used in the Business Combination Agreement, will be (i) for an amount equal to forty percent (40%) of the Lock-up Shares, as such term is used in the Business Combination Agreement, one year from the closing of the Business Combination (the “Closing”), (ii) for an amount equal to thirty percent (30%) of the Lock-up Shares, two years from the Closing and (iii) for an amount equal to thirty percent (30%) of the Lock-up Shares, three years from the Closing.

[Table of Contents](#)

Registration Statement on Form S-4

The Company filed a registration statement on Form S-4 (File No. 333-262644) (the “Form S-4”) with the SEC on February 11, 2022, in connection with the Business Combination Agreement. The consummation of the transactions contemplated by the Business Combination Agreement is subject to customary conditions, representations and warranties, covenants and closing conditions in the Business Combination Agreement, including, but not limited to, approval by the Company’s shareholders of the Business Combination Agreement, the effectiveness of the Form S-4, and other customary closing conditions, including the receipt of certain regulatory approvals. The transaction is expected to close in the third quarter of 2022.

Risks and Uncertainties

Management is continuing to evaluate the impact of the COVID-19 pandemic and the Russia-Ukraine war and has concluded that while it is reasonably possible that it could have a negative effect on the Company’s financial position, results of its operations and/or search for a target company, the specific impact is not readily determinable as of the date of these unaudited condensed financial statements. The unaudited condensed financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Liquidity and Going Concern Consideration

As of March 31, 2022, the Company had \$109,240 in its operating bank account, and a working capital deficit of \$39,029.

The Company is within 12 months of its mandatory liquidation date of February 26, 2023 as of the date of this Quarterly Report on Form 10-Q. In connection with the Company’s assessment of going concern considerations in accordance with Accounting Standards Update (“ASU”) 2014-15, “Disclosures of Uncertainties about an Entity’s Ability to Continue as a Going Concern,” the Company anticipates the consummation of the Business Combination in the third quarter of 2022 alleviating the concern about the Company’s ability to continue as a going concern until the earlier of the consummation of the Business Combination or the date the Company is required to liquidate, February 26, 2023.

Although the Company believes that the previously discussed proposed Business Combination will occur, the Company’s liquidation requirement discussed in the preceding paragraph raises substantial doubt about the Company’s ability to continue as a going concern through one year from the date of these financial statements if the Business Combination is not consummated. These unaudited condensed financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

Note 2 — Significant Accounting Policies

Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X of the SEC. Certain information or footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted, pursuant to the rules and regulations of the SEC for interim financial reporting. Accordingly, they do not include all the information and footnotes necessary for a complete presentation of financial position, results of operations, or cash flows. In the opinion of management, the accompanying unaudited condensed financial statements include all adjustments, consisting of a normal recurring nature, which are necessary for a fair presentation of the financial position, operating results and cash flows for the periods presented. The interim results for the three months ended March 31, 2022 are not necessarily indicative of the results to be expected for the year ending December 31, 2022 or for any future interim periods. The accompanying unaudited condensed financial statements should be read in conjunction with the Company’s audited financial statements and notes thereto included in the Company’s Annual Report on Form 10-K filed with the SEC on March 18, 2022.

Emerging Growth Company Status

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart our Business Startups Act of 2012 (the “JOBS Act”), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

[Table of Contents](#)

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Securities Exchange Act of 1934, as amended) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's unaudited condensed financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of Estimates

The preparation of unaudited condensed financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the unaudited condensed financial statements and the reported amounts of expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company had cash of \$109,240 and \$551,258 as of March 31, 2022 and December 31, 2021, respectively. The Company did not have any cash equivalents as of March 31, 2022 and December 31, 2021.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of a cash account in a financial institution, which, at times, may exceed the Federal Depository Insurance Coverage of \$250,000. The Company has not experienced losses on this account.

Cash and Marketable Securities Held in Trust Account

At March 31, 2022 and December 31, 2021, substantially all of the assets held in the Trust Account were held in money market funds which invest in U.S. Treasury securities.

Warrant Liabilities

The Company evaluated the Warrants (which are discussed in Note 3, Note 4 and Note 9), in accordance with ASC 815-40 and concluded that a provision in its warrant agreement related to certain tender or exchange offers precludes the Warrants from being accounted for as components of equity. As the Warrants meet the definition of a derivative as contemplated in ASC 815-40, the Warrants are recorded as derivative liabilities on the balance sheets and measured at fair value at inception (the date of the IPO) and at each reporting date in accordance with Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 820, "Fair Value Measurement", with changes in fair value recognized in the Statements of Operations in the period of change.

Offering Costs Associated with the Initial Public Offering

The Company complies with the requirements of the FASB ASC 340-10-S99-1. Offering costs consisted of legal, accounting, underwriting fees and other costs incurred through the IPO that were directly related to the IPO. Offering costs are allocated to the separable financial instruments issued in the IPO based on a relative fair value basis, compared to total proceeds received. Offering costs associated with warrant liabilities are expensed as incurred, presented as non-operating expenses in the statements of operations. Offering costs associated with the Class A ordinary shares were charged to temporary equity upon the completion of the IPO.

[Table of Contents](#)

Class A Ordinary Shares Subject to Possible Redemption

All of the 34,500,000 Class A ordinary shares sold as part of the Units in the IPO contain a redemption feature which allows for the redemption of such Public Shares in connection with the Company's liquidation, if there is a shareholder vote or tender offer in connection with the Business Combination and in connection with certain amendments to the Company's amended and restated memorandum and articles of association. In accordance with the SEC and its staff's guidance on redeemable equity instruments, which has been codified in ASC 480-10-S99, redemption provisions not solely within the control of the Company require ordinary shares subject to redemption to be classified outside of permanent equity. Ordinary liquidation events, which involve the redemption and liquidation of all of the entity's equity instruments, are excluded from the provisions of ASC 480. Accordingly, at March 31, 2022 and December 31, 2021, all Class A ordinary shares subject to possible redemption are presented at redemption value as temporary equity, outside of the shareholders' deficit section of the Company's balance sheets.

The Company recognizes changes in redemption value immediately as they occur and adjusts the carrying value of redeemable ordinary share to equal the redemption value at the end of each reporting period. Increases or decreases in the carrying amount of redeemable ordinary share are affected by charges against additional paid in capital and accumulated deficit.

As of March 31, 2022 and December 31, 2021, the ordinary shares subject to redemption reflected on the balance sheets are reconciled in the following table:

	March 31, 2022	December 31, 2021
Gross Proceeds	\$ 345,000,000	\$ 345,000,000
Less:		
Proceeds allocated to public warrants	(15,007,500)	(15,007,500)
Class A ordinary shares issuance costs	(18,671,929)	(18,671,929)
Plus:		
Remeasurement of carrying value to redemption value	33,679,429	33,679,429
Interest earned on Trust	151,304	31,308
Class A ordinary shares subject to possible redemption	\$ 345,151,304	\$ 345,031,308

Income Taxes

The Company accounts for income taxes under FASB ASC Topic 740, "Income Taxes" ("ASC 740"). ASC 740 requires the recognition of deferred tax assets and liabilities for both the expected impact of differences between the financial statement and tax basis of assets and liabilities and for the expected future tax benefit to be derived from tax loss and tax credit carry forwards. ASC 740 additionally requires a valuation allowance to be established when it is more likely than not that all or a portion of deferred tax assets will not be realized.

ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. The Company's management determined that the Cayman Islands is the Company's only major tax jurisdiction. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. As of March 31, 2022 and December 31, 2021, there were no unrecognized tax benefits, and no amounts were accrued for the payment of interest and penalties. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position.

There is currently no taxation imposed on income by the government of the Cayman Islands. In accordance with Cayman Islands income tax regulations, income taxes are not levied on the Company. Consequently, income taxes are not reflected in the Company's financial statements. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

Net Income (Loss) Per Share

The Company complies with accounting and disclosure requirements of FASB ASC Topic 260, "Earnings Per Share." Net income (loss) per share is computed by dividing net income (loss) by the weighted average number of ordinary shares outstanding during the period. The Company has two classes of shares, Class A ordinary shares and Class B ordinary shares. Earnings and losses are shared pro rata between the two classes of shares. The Company has not considered the effect of the 20,400,000 ordinary shares underlying the 11,500,000 Warrants sold in the IPO and the 8,900,000 Private Warrants sold in the private placement, in the calculation of diluted income (loss) per share, since the exercise of the warrants is contingent upon the occurrence of future events. As a result, diluted net income (loss) per ordinary share is the same as basic net income (loss) per ordinary share for the period presented.

[Table of Contents](#)

The Company's statements of operations applies the two-class method in calculating net income (loss) per share. Basic and diluted net income (loss) per ordinary share for Class A ordinary shares and Class B ordinary shares is calculated by dividing net income (loss) attributable to the Company by the weighted average number of Class A ordinary shares and Class B ordinary shares outstanding, allocated proportionally to each class of shares.

Reconciliation of Net Income (Loss) per Share

The Company's net income (loss) is adjusted for the portion of net income (loss) that is allocable to each class of ordinary shares. The allocable net income (loss) is calculated by multiplying net income (loss) by the ratio of weighted average number of shares outstanding attributable to Class A ordinary shares and Class B ordinary shares to the total weighted average number of shares outstanding for the period. Remeasurement of the carrying value of Class A ordinary shares to redemption value is excluded from net income (loss) per ordinary share because the redemption value approximates fair value.

Accordingly, basic and diluted income (loss) per ordinary share is calculated as follows:

	For the Three Months Ended March 31, 2022	For the Three Months Ended March 31, 2021
Class A Ordinary Shares		
Numerator: Net income (loss) allocable to Class A ordinary shares		
Net loss	\$ 9,920,886	\$ (4,901,560)
Less: Allocation of income (loss) to Class B ordinary shares	1,984,177	(1,886,132)
Proportionate share of net income (loss)	<u>\$ 7,936,709</u>	<u>\$ (3,015,428)</u>
Denominator: Weighted Average Class A ordinary shares		
Basic and diluted weighted average shares outstanding	34,500,000	12,650,000
Basic and diluted net income (loss) per share	<u>\$ 0.23</u>	<u>\$ (0.24)</u>
Class B Ordinary Shares		
Numerator: Net income (loss) allocable to Class B ordinary shares		
Net loss	\$ 9,920,886	\$ (4,901,560)
Less: Allocation of net income (loss) to Class A ordinary shares	7,936,709	(3,015,428)
Proportionate share of net income (loss)	<u>\$ 1,984,177</u>	<u>\$ (1,886,132)</u>
Denominator: Weighted Average Class B ordinary shares		
Basic and diluted weighted average shares outstanding	8,625,000	7,912,500
Basic and diluted net income (loss) per share	<u>\$ 0.23</u>	<u>\$ (0.24)</u>

Fair Value of Financial Instruments

The Company follows the guidance in FASB ASC Topic 820, "Fair Value Measurement," for its financial assets and liabilities that are re-measured and reported at fair value at each reporting period, and non-financial assets and liabilities that are re-measured and reported at fair value at least annually.

The fair value of certain of the Company's financial assets and liabilities reflects management's estimate of amounts that the Company would have received in connection with the sale of the assets or paid in connection with the transfer of the liabilities in an orderly transaction between market participants at the measurement date. In connection with measuring the fair value of its assets and liabilities, the Company seeks to maximize the use of observable inputs (market data obtained from independent sources) and to minimize the use of unobservable inputs (internal assumptions about how

[Table of Contents](#)

market participants would price assets and liabilities). The following fair value hierarchy is used to classify assets and liabilities based on the observable inputs and unobservable inputs used in order to value the assets and liabilities:

- Level 1 – Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation adjustments and block discounts are not being applied. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.
- Level 2 – Valuations based on (i) quoted prices in active markets for similar assets and liabilities, (ii) quoted prices in markets that are not active for identical or similar assets, (iii) inputs other than quoted prices for the assets or liabilities, or (iv) inputs that are derived principally from or corroborated by market through correlation or other means.
- Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

See Note 9 for additional information on assets and liabilities measured at fair value.

Recent Accounting Pronouncements

The Company's management does not believe that any other recently issued, but not effective, accounting standards, if currently adopted, would have a material effect on the accompanying financial statements.

Note 3 — Initial Public Offering

Public Units

On February 26, 2021, the Company sold 34,500,000 Units, which includes the full exercise by the underwriters of the over-allotment option to purchase an additional 4,500,000 Units, at a purchase price of \$10.00 per Unit. Each Unit consists of one Class A ordinary share, and one-third of one redeemable warrant to purchase one Class A ordinary share.

Public Warrants

Each whole Warrant entitles the holder to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment as discussed herein. The Warrants will become exercisable on the later of 12 months from the closing of the IPO or 30 days after the completion of its initial Business Combination and will expire five years after the completion of the Company's initial Business Combination, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation.

In addition, if (i) the Company issues additional Class A ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of the initial Business Combination at an issue price or effective issue price of less than \$9.20 per Class A ordinary share (with such issue price or effective issue price to be determined in good faith by the Company's board of directors and in the case of any such issuance to the Sponsor or its affiliates, without taking into account any founder shares held by the Sponsor or its affiliates, as applicable, prior to such issuance) (the "Newly Issued Price"), (ii) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of the initial Business Combination on the date of the consummation of the initial Business Combination (net of redemptions), and (iii) the volume weighted average trading price of the Company's Class A ordinary shares during the 20 trading day period starting on the trading day prior to the day on which the Company consummates its initial Business Combination (such price, the "Market Value") is below \$9.20 per share, then the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price described adjacent to "Redemption of warrants when the price per ordinary share equals or exceeds \$18.00" will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price, respectively.

[Table of Contents](#)

The Company has agreed that as soon as practicable, but in no event later than fifteen (15) business days after the closing of the initial Business Combination, it will use its commercially reasonable efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the Class A ordinary shares issuable upon exercise of the warrants. The Company will use its commercially reasonable efforts to cause the same to become effective and to maintain the effectiveness of such registration statement, and a current prospectus relating thereto, until the expiration or redemption of the warrants in accordance with the provisions of the warrant agreement. Notwithstanding the above, if the Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a “covered security” under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of public warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elects, it will not be required to file or maintain in effect a registration statement or register or qualify the shares under applicable blue sky laws to the extent an exemption is available.

Redemption of Warrants When the Price per Class A Ordinary Share Equals or Exceeds \$18.00

Once the Public Warrants become exercisable, the Company may redeem the outstanding Public Warrants (except as described herein with respect to the Private Warrants):

- in whole and not in part;
- at a price of \$0.01 per Warrant;
- upon not less than 30 days’ prior written notice of redemption (the “30-day redemption period”) to each warrant holder;
- if, and only if, the last sale price of the Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, and recapitalizations), for any 20 trading days within a 30-trading day period ending on the third business day prior to the notice of redemption to the warrant holders; and
- if, and only if, there is a current registration statement in effect with respect to the Class A ordinary shares underlying the Warrants.

Note 4 — Private Placement

Simultaneously with the closing of the IPO, the Sponsor purchased an aggregate of 8,900,000 Private Warrants at a price of \$1.00 per Private Warrant, for an aggregate purchase price of \$8,900,000, in a private placement. A portion of the proceeds from the private placement was added to the proceeds from the IPO held in the Trust Account.

The Private Warrants are identical to the warrants sold in the IPO except that the Private Warrants, so long as they are held by the Sponsor or its permitted transferees, (i) will not be redeemable by the Company, (ii) may not (including the Class A ordinary shares issuable upon exercise of these Private Warrants), subject to certain limited exceptions, be transferred, assigned or sold by the holders until 30 days after the completion of the Company’s initial Business Combination, (iii) may be exercised by the holders on a cashless basis and (iv) will be entitled to certain registration rights. If the Private Warrants are held by holders other than the Sponsor or its permitted transferees, the Private Warrants will be redeemable by the Company and exercisable by the holders on the same basis as the warrants included in the units being sold in the IPO.

The initial shareholders, officers, directors and independent directors have agreed to waive their redemption rights with respect to any Public Shares they may acquire during or after the IPO, in connection with the completion of the initial Business Combination. If the Company does not complete the initial Business Combination within the applicable time period, the proceeds of the sale of the Private Warrants will be used to fund the redemption of the Public Shares.

Note 5 — Related Party Transactions

Founder Shares

On December 31, 2020, the Company issued an aggregate of 7,187,500 founder shares to the Sponsor for an aggregate purchase price of \$25,000, or approximately \$0.003 per share, in cash. In February 2021, the Sponsor transferred an aggregate of 75,000 founder shares to its independent directors. On February 23, 2021, the Company effectuated a recapitalization, and as a result, the initial shareholders held 8,625,000 founder shares, including up to 1,125,000 founder shares which were subject to forfeiture by the Sponsor, if the over-allotment option was not exercised by the underwriters in full. As a result of the underwriters’ full exercise of their over-allotment option on February 26, 2021, none of the Class B ordinary shares are subject to forfeiture any longer.

[Table of Contents](#)

The initial shareholders have agreed not to transfer, assign or sell any of the founder shares (except to certain permitted transferees) until the earlier of (i) one year after the date of the completion of the initial Business Combination or earlier if, subsequent to the initial Business Combination, the last reported sale price of the Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share splits, share dividends, reorganizations and recapitalizations) for any 20 trading days within any 30-trading day period commencing at least 150 days after the initial Business Combination, or (ii) the Company consummates a subsequent liquidation, merger, capital share exchange or other similar transaction which results in all of the shareholders having the right to exchange their ordinary shares for cash, securities or other property.

Promissory Note

On December 31, 2020, the Sponsor issued to the Company an unsecured promissory note to borrow up to \$250,000 to be used for a portion of the expenses of the IPO. These loans were non-interest bearing, unsecured and were due at the earlier of June 30, 2021 or the closing of the IPO. As of February 26, 2021, the Company had borrowings of \$144,890 under the promissory note, and on February 26, 2021, repaid the \$144,890 from the proceeds of the IPO. As of March 31, 2022 and December 31, 2021, the Company had no outstanding borrowings under the promissory note.

Working Capital Loans

In order to fund working capital deficiencies or finance transaction costs in connection with an initial Business Combination, the Sponsor, the Company's officers, directors or their affiliates may, but are not obligated to, loan the Company funds from time to time as may be required (the "Working Capital Loans"). If the Company completes the initial Business Combination, the Company will repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. In the event that the initial Business Combination does not close, the Company may use a portion of the working capital held outside the Trust Account to repay the Working Capital Loans but no proceeds from the Trust Account would be used to repay the Working Capital Loans. Up to \$1,500,000 of such Working Capital Loans may be convertible into Private Warrants at a price of \$1.00 per warrant at the option of the lender. Such warrants would be identical to the Private Warrants. As of March 31, 2022 and December 31, 2021, the Company had no borrowings under Working Capital Loans.

Administrative Service Fee

The Company agreed to pay the Sponsor \$10,000 per month for office space, utilities, secretarial support and administrative services. The Company began incurring these fees on February 23, 2021 and will continue to incur these fees monthly until the earlier of the completion of an initial Business Combination and the Company's liquidation. For the three months ended March 31, 2022 and March 31, 2021, the Company incurred \$30,000 and \$20,000 in such fees, respectively.

Note 6 — Commitments and Contingencies

Underwriting Agreement

The underwriter had a 45-day option from the date of the IPO to purchase up to an aggregate of 4,500,000 additional Units at the public offering price less the underwriting commissions. On February 26, 2021, the underwriter fully exercised its over-allotment option.

Upon consummation of the IPO on February 26, 2021, the underwriters were paid a cash underwriting fee of 2.0% of the gross proceeds of the IPO, or \$6,900,000 in the aggregate.

The underwriters of the IPO are entitled to a deferred underwriting commission of 3.5% of the gross proceeds of the IPO, or \$12,075,000 in the aggregate. Subject to the terms of the underwriting agreement, the deferred underwriting commission will be payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes an initial Business Combination and the deferred underwriting commission will be waived by the underwriters in the event that the Company does a Business Combination.

Registration Rights

On February 23, 2021, the Company entered into a registration rights agreement with respect to the founder shares, the Private Warrants and warrants that may be issued upon conversion of the Working Capital Loans (and any Class A ordinary shares issuable upon the exercise of the Private Warrants and warrants that may be issued upon conversion of Working Capital Loans), which requires the Company to register such securities for resale (in the case of the founder shares, only after conversion to Class A ordinary shares).

[Table of Contents](#)

Pursuant to such registration rights agreement, the holders of the majority of these securities will be entitled to make up to three demands, excluding short form demands, that we register such securities. In addition, the holders will have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the completion of the Company’s initial Business Combination and rights to require the Company to register for resale such securities pursuant to Rule 415 under the Securities Act. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Note 7 — Class A Ordinary Shares Subject to Possible Redemption

Class A Ordinary Shares— The Company is authorized to issue up to 200,000,000 Class A ordinary shares with a par value of \$0.0001 per share. At each of March 31, 2022 and December 31, 2021 there were 34,500,000 issued and outstanding. Of the issued and outstanding Class A ordinary shares, 34,500,000 shares are subject to possible redemption at March 31, 2022 and, therefore, classified outside of permanent equity. At March 31, 2022 and December 31, 2021, all Class A ordinary shares subject to possible redemption are presented at redemption value as temporary equity, outside of the shareholders’ deficit section of the Company’s balance sheets.

Note 8 — Shareholders’ Deficit

Preference Shares— The Company is authorized to issue 1,000,000 preference shares with a par value of \$0.0001 per share, with such designations, voting and other rights and preferences as may be determined from time to time by the Company’s board of directors. At March 31, 2022 and December 31, 2021, there were no preference shares issued or outstanding.

Class B Ordinary Shares— The Company is authorized to issue 20,000,000 Class B ordinary shares with a par value of \$0.0001 per share. At March 31, 2022 and December 31, 2021, there were 8,625,000 Class B ordinary shares issued and outstanding. On February 23, 2021, the Company effectuated a recapitalization resulting in the initial shareholders holding 8,625,000 Class B ordinary shares, including up to 1,125,000 founder shares which were subject to forfeiture by the Sponsor, if the over-allotment option was not exercised by the underwriters in full. As a result of the underwriters’ full exercise of their over-allotment option on February 26, 2021, none of the Class B ordinary shares are subject to forfeiture any longer.

Ordinary shareholders of record are entitled to one vote for each share held on all matters to be voted on by shareholders. Holders of Class A ordinary shares and Class B ordinary shares will vote together as a single class on all matters submitted to a vote of the Company’s shareholders except as required by law. Unless specified in the Company’s amended and restated memorandum and articles of association, or as required by applicable provisions of the Companies Act (As Revised) of the Cayman Islands, as amended from time to time, or applicable share exchange rules, the affirmative vote of a majority of the Company’s ordinary shares that are voted is required to approve any such matter voted on by its shareholders.

The Class B ordinary shares will automatically convert into Class A ordinary shares at the time of the Company’s initial Business Combination or earlier at the option of the holders thereof at a ratio such that the number of Class A ordinary shares issuable upon conversion of all founder shares will equal, in the aggregate, on an as-converted basis, 20% of the sum of (i) the total number of the Company’s ordinary shares issued and outstanding upon completion of the IPO, plus (ii) the total number of Class A ordinary shares issued or deemed issued or issuable upon conversion or exercise of any equity-linked securities (as defined herein) or rights issued or deemed issued by the Company in connection with or in relation to the completion of the initial Business Combination, excluding any Class A ordinary shares or equity-linked securities exercisable for or convertible into Class A ordinary shares issued, deemed issued, or to be issued, to any seller of a target business in the initial Business Combination and any warrants issued upon conversion of Working Capital Loans. In no event will the Class B ordinary shares convert into Class A ordinary shares at a rate of less than one-to-one.

Note 9 — Fair Value Measurements

The following tables present information about the Company’s assets and liabilities that are measured at fair value on a recurring basis at March 31, 2022 and December 31, 2021, and indicates the fair value hierarchy of the valuation inputs the Company utilized to determine such fair value:

[Table of Contents](#)

	March 31, 2022	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)
Assets:				
U.S. Money Market held in Trust Account	\$345,171,114	\$ 345,171,114	\$ —	\$ —
Liabilities:				
Public Warrants Liability	7,187,500	7,187,500	—	—
Private Warrants Liability	5,646,455	—	—	5,646,455
	<u>\$ 12,833,955</u>	<u>\$ 7,187,500</u>	<u>\$ —</u>	<u>\$ 5,646,455</u>

	December 31, 2021	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)
Assets:				
U.S. Money Market held in Trust Account	\$345,031,308	\$ 345,031,308	\$ —	\$ —
Liabilities:				
Public Warrants Liability	12,765,000	12,765,000	—	—
Private Warrants Liability	10,328,609	—	—	10,328,609
	<u>\$ 23,093,609</u>	<u>\$ 12,765,000</u>	<u>\$ —</u>	<u>\$ 10,328,609</u>

The Warrants are accounted for as liabilities in accordance with ASC 815-40 and are presented within warrant liabilities on the balance sheets. The warrant liabilities are measured at fair value at inception and on a recurring basis, with changes in fair value presented within change in fair value of warrant liabilities in the Statements of Operations.

The Company established the initial fair value of the Public Warrants and Private Warrants on February 26, 2021, the date of the Company's IPO, using a Monte Carlo simulation model. As of March 31, 2022 and December 31, 2021, the fair value for the Private Warrants was estimated using a Monte Carlo simulation model, and the fair value of the Public Warrants by reference to the quoted market price. The Public Warrants and Private Warrants were classified as Level 3 at the initial measurement date, and the Private Warrants were classified as Level 3 as of March 31, 2022 and December 31, 2021 due to the use of unobservable inputs. For the period ending December 31, 2021, the Public Warrants were reclassified from a Level 3 to a Level 1 classification due to use of the observed trading price of the separated Public Warrants. For the three months ended March 31, 2022, there were no transfers between Levels 1, 2 or 3.

The following table presents the changes Level 3 liabilities:

Fair Value at January 1, 2021	\$ —
Initial fair value of public and private warrants	27,004,700
Transfer of public warrants to Level 1	(15,007,500)
Change in fair value	(1,668,591)
Fair Value at December 31, 2021	10,328,609
Change in fair value	(4,682,154)
Fair Value at March 31, 2022	<u>\$ 5,646,455</u>

The key inputs into the Monte Carlo simulation as of March 31, 2022 and December 31, 2021 were as follows:

	March 31, 2022	December 31, 2021
Risk-free interest rate	2.42%	1.30%
Expected term remaining (years)	5.39	5.49
Expected volatility	8.8%	17.5%
Stock price	\$ 9.87	\$ 9.88

Note 10 — Subsequent Events

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the unaudited condensed financial statements were issued. Based upon this review, the Company did not identify any subsequent events that would have required adjustment or disclosure in the unaudited condensed financial statements.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

References in this Quarterly Report on Form 10-Q (this “Quarterly Report”) to “we,” “us” or the “Company” refer to Cartesian Growth Corporation. References to our “management” or our “management team” refer to our officers and directors, and references to the “sponsor” refer to our sponsor, CGC Sponsor LLC, a Cayman Islands limited liability company. The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the unaudited condensed financial statements and the notes thereto contained elsewhere in this Quarterly Report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

Special Note Regarding Forward-Looking Statements

This Quarterly Report includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), that are not historical facts, and involve risks and uncertainties that could cause actual results to differ materially from those expected and projected. All statements, other than statements of historical fact included in this Quarterly Report including, without limitation, statements in this “Management’s Discussion and Analysis of Financial Condition and Results of Operations” regarding our financial position, business strategy and the plans and objectives of management for future operations, are forward-looking statements. Words such as “expect,” “believe,” “anticipate,” “intend,” “estimate,” “seek” and variations and similar words and expressions are intended to identify such forward-looking statements. Such forward-looking statements relate to future events or future performance, but reflect management’s current beliefs, based on information currently available. A number of factors could cause actual events, performance or results to differ materially from the events, performance and results discussed in the forward-looking statements. For information identifying important factors that could cause actual results to differ materially from those anticipated in the forward-looking statements, please refer to the Risk Factors section of our Annual Report on Form 10-K for the year ended December 31, 2021 (the “2021 Annual Report”) filed with the U.S. Securities and Exchange Commission (the “SEC”) on March 18, 2022. Our securities filings can be accessed on the EDGAR section of the SEC’s website at www.sec.gov. Except as expressly required by applicable securities law, we disclaim any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

Overview

We are a blank check company incorporated on December 18, 2020 as a Cayman Islands exempted company, for the purpose of entering into a merger, capital stock exchange, asset acquisition, stock purchase, or reorganization or engaging in any other similar business combination with one or more businesses or entities.

We may pursue our initial business combination in any business industry or sector, however, we have focused on seeking high-growth businesses with proven or potential transnational operations or outlooks in order to capitalize on the experience, reputation, and network of our management team. Furthermore, we seek target businesses where we believe we will have an opportunity to drive ongoing value creation after our initial business combination is completed, as our management team has done with multiple investments over a wide range of sectors, industries and geographical locations.

We intend to effectuate our initial business combination using cash from the proceeds of the initial public offering, including the full exercise of the underwriters’ over-allotment option, and the sale of the private placement warrants to our sponsor that occurred simultaneously with the consummation of the initial public offering (the “private placement”), our securities, debt or a combination of cash, securities and debt.

We have incurred, and in the event the Proposed Business Combination (as defined below) is not consummated, expect to continue to incur significant costs in the pursuit of our acquisition plans. We cannot assure you that our plans to complete our initial business combination, including the Proposed Business Combination, will be successful.

Recent Developments

Proposed Business Combination

On September 19, 2021, we, Tiedemann Wealth Management Holdings, LLC, a Delaware limited liability company (“TWMH”), TIG Trinity GP, LLC, a Delaware limited liability company (“TIG GP”), TIG Trinity Management, LLC, a Delaware limited liability company (“TIG MGMT” and, together with TIG GP, the “TIG Entities”), Alvarium Investments Limited, an English private limited company (“Alvarium” and, together with TWMH and the TIG Entities, the “Target Companies” and each a “Target Company”), Rook MS LLC, a Delaware limited liability company (“Umbrella Merger Sub”) and Alvarium Tiedemann Capital, LLC,

Table of Contents

a Delaware limited liability company (“Umbrella”) entered into a business combination agreement (as may be amended, supplemented, or otherwise modified from time to time, the “Business Combination Agreement”), pursuant to which we will hold Umbrella, a newly formed Delaware limited liability company for purposes of effecting the transactions contemplated by the Business Combination Agreement, which will hold the businesses of the Target Companies.

Business Combination Agreement

Pursuant to the Business Combination Agreement, among other things, (i) prior to the closing of the Business Combination Agreement (the “Closing” and, the date on which the Closing occurs, the “Closing Date”), TWMH and the TIG Entities shall take, or cause to be taken, all actions necessary to implement a reorganization such that TWMH and the TIG Entities shall be wholly owned direct or indirect subsidiaries of Umbrella and Umbrella shall be owned solely by the members of TWMH, the members of TIG GP and the members of TIG MGMT (the “TWMH/TIG Entities Reorganization”); (ii) prior to the Closing, Alvarium will take, or cause to be taken, all actions necessary to implement a reorganization such that Alvarium will be the wholly owned indirect subsidiary of a newly formed Isle of Man entity (“Alvarium Topco”), and Alvarium Topco will be owned solely by the shareholders of Alvarium (the “Alvarium Reorganization”); (iii) on the business day prior to the Closing Date, we will domesticate as a corporation formed under the laws of the State of Delaware and deregister as an exempted company incorporated under the laws of the Cayman Islands (the “Domestication”), each of our outstanding Class A ordinary shares shall be converted into the right to receive one share of Class A common stock of us (the “Class A Common Stock”) and we will be renamed “Alvarium Tiedemann Holdings, Inc.”; (iv) at the Closing, TIG MGMT, TIG GP and Umbrella will enter into a distribution agreement, pursuant to which (a) TIG MGMT will distribute to Umbrella all of the issued and outstanding shares or partnership interests, as applicable, that it holds with each of its Affiliated Managers, and (b) TIG GP will distribute to Umbrella all of the issued and outstanding shares or interests that it holds with its Affiliated Manager; (v) at the Closing, each shareholder of Alvarium Topco will exchange his, her or its (a) ordinary shares of Alvarium Topco and (b) class A shares of Alvarium Topco for Class A Common Stock (the “Alvarium Exchange”) and upon the consummation of the Alvarium Exchange, Alvarium Topco will become a direct wholly-owned subsidiary of the Company; (vi) immediately following the effective time of the Alvarium Exchange, Umbrella Merger Sub will merge with and into Umbrella, with Umbrella surviving such merger as a direct subsidiary of us (the “Umbrella Merger”); (vii) at the Closing, following the Alvarium Exchange and the Umbrella Merger, we will contribute all of the issued and outstanding shares of Alvarium Topco that we hold to Umbrella (the “Alvarium Contribution”) and upon the consummation of the Alvarium Contribution, Alvarium Topco will become a wholly-owned subsidiary of Umbrella; and (viii) following the Closing, Alvarium Topco will be liquidated and Alvarium Holdings LLC (to be renamed Alvarium Tiedemann Holdings, LLC) will become the wholly owned direct subsidiary of Umbrella (collectively, the “Proposed Business Combination”).

The consummation of the transactions contemplated by the Business Combination Agreement is subject to customary conditions, representations and warranties, covenants and closing conditions in the Business Combination Agreement, including, but not limited to, approval by our shareholders of the Business Combination Agreement, the effectiveness of a registration statement on Form S-4 (File No. 333-262644), which was initially filed with the SEC on February 11, 2022, in connection with the Proposed Business Combination, and other customary closing conditions, including the receipt of certain regulatory approvals. The transaction is expected to close in the third quarter of 2022.

Subscription Agreements

Concurrently with the execution of the Business Combination Agreement, we entered into subscription agreements (the “PIPE Subscription Agreements”) with certain investors (each a “PIPE Investor”) to purchase, following the Domestication, Class A Common Stock (such shares, collectively, “PIPE Shares”) in an aggregate value of \$164,999,807, representing 16,836,715 PIPE Shares at a price of \$9.80 per share.

The closing of the sale of PIPE Shares (the “PIPE Closing”) will occur immediately prior to the Closing. The PIPE Closing will be subject to customary conditions, including, but not limited to:

- i. all representations and warranties of us and the PIPE Investor contained in the relevant PIPE Subscription Agreement will be true and correct in all material respects (other than representations and warranties that are qualified as to materiality or Material Adverse Effect (as defined in the PIPE Subscription Agreements), which representations and warranties will be true in all respects) at, and as of, the PIPE Closing;
- ii. all conditions precedent to the Closing will have been satisfied or waived; and

- iii. without the consent of the PIPE Investor, the Business Combination Agreement cannot be amended, modified or waived in a manner that reasonably would be expected to materially and adversely affect the economic benefits the PIPE Investor reasonably would expect to receive under the PIPE Subscription Agreement.

Pursuant to the PIPE Subscription Agreements, we agreed that, within 45 calendar days after the consummation of the Proposed Business Combination, we will file with the SEC a registration statement registering the resale of the PIPE Shares, and we will use our commercially reasonable efforts to have such registration statement declared effective as soon as practicable after the filing thereof; provided, however, that our obligations to include the shares held by a PIPE Investor in such registration statement will be contingent upon the respective PIPE Investor furnishing in writing to us such information regarding the PIPE Investor, the securities held by such PIPE Investor and the intended method of disposition of the shares, as will be reasonably requested by us to effect the registration of such shares, and will execute such documents in connection with such registration, as we may reasonably request that are customary of a selling shareholder in similar situations.

Each PIPE Subscription Agreement will terminate upon the earlier to occur of (i) such date and time as the Business Combination Agreement is terminated in accordance with its terms, (ii) upon the mutual written agreement of each of the parties to the PIPE Subscription Agreement; or (iii) if any of the conditions to PIPE Closing set forth in Sections 3.2 and 3.3 of such PIPE Subscription Agreement are not satisfied on or prior to the Closing Date and, as a result thereof, the transactions contemplated by such PIPE Subscription Agreement are not consummated at the PIPE Closing.

Results of Operations

We have neither engaged in any operations nor generated any revenues to date. Our only activities through March 31, 2022 were organizational activities, those necessary to prepare for the initial public offering, described below, and, after our initial public offering, identifying a target company for an initial business combination. We do not expect to generate any operating revenues until after the completion of an initial business combination. We generate non-operating income in the form of interest income on marketable securities held in the trust account established for the benefit of our public shareholders. We incur expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses in connection with searching for, and completing, an initial business combination.

For the three months ended March 31, 2022, we had a net income of approximately \$9.92 million, which included a loss from operations of \$0.48 million, an interest earned on cash and marketable securities held in trust account of approximately \$0.12 million, a gain from the change in fair value of warrant liabilities of \$10.30 million, and an increase in unrealized gain on treasury bills of approximately \$0.02 million.

For the three months ended March 31, 2021, we had a net loss of approximately \$4.90 million, which included a loss from operations of \$0.09 million, offering cost expense allocated to warrants of \$0.85 million, an expense for the fair value in excess of cash received for private placement warrants of \$3.10 million, a loss from the change in fair value of warrant liabilities of \$0.87 million, and an interest earned on cash and marketable securities held in trust account of approximately \$0.01 million.

Liquidity, Capital Resources and Going Concern Consideration

Until the consummation of the initial public offering, our only source of liquidity was an initial subscription of Class B ordinary shares, par value \$0.0001 per share (the “founder shares”), by the sponsor for an aggregate subscription price of \$25,000 and loans from the sponsor.

On February 26, 2021, we consummated the initial public offering of 34,500,000 units, at \$10.00 per unit, which included the full exercise by the underwriters of their over-allotment option in the amount of 4,500,000 units, generating gross proceeds of \$345,000,000. Simultaneously with the closing of the initial public offering, we consummated a private placement of an aggregate of 8,900,000 private placement warrants to the sponsor at a price of \$1.00 per private placement warrant, generating gross proceeds of \$8,900,000.

Following the initial public offering, including the full exercise of the over-allotment option and the private placement, a total of \$345,000,000 was placed in the trust account. We incurred \$19,540,060 in transaction costs, including \$6,900,000 of underwriting commissions \$12,075,000 of deferred underwriting commissions and \$565,060 of other offering costs.

As of March 31, 2022, we had approximately \$0.11 million in cash, available for working capital needs. All remaining cash was held in the trust account and is generally unavailable for our use, prior to an initial business combination.

[Table of Contents](#)

As of March 31, 2022, we had marketable securities held in the trust account of \$345,171,114 consisting of securities held in a money market fund that invests in U.S. government treasury bills with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act that invest only in direct U.S. government treasury obligations. Through March 31, 2022, we did not withdraw any interest earned on the trust account to pay our taxes. We intend to use substantially all of the funds held in the trust account, including any amounts representing interest earned on the trust account (less income taxes payable), to complete an initial business combination and to pay our expenses relating thereto, including \$12,075,000 payable to Cantor Fitzgerald & Co. for deferred underwriting commissions upon consummation of our initial business combination. We may withdraw interest to pay taxes. To the extent that our capital stock or debt is used, in whole or in part, as consideration to complete our initial business combination, the remaining proceeds held in the trust account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

As of March 31, 2022, we had cash of \$109,240 held outside the trust account. We intend to use the funds held outside the trust account primarily to identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete an initial business combination.

In order to fund working capital deficiencies or finance transaction costs in connection with an initial business combination, our initial shareholders, officers, directors or their affiliates may, but are not obligated to, loan us funds from time to time as may be required. If we complete an initial business combination, we would repay such loaned amounts out of the proceeds of the trust account released to us. In the event that an initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from the trust account would be used to repay such loaned amounts. Up to \$1,500,000 of such loans may be convertible into private placement warrants at a price of \$1.00 per warrant, at the option of the lender. Such warrants would be identical to the private placement warrants.

We do not believe we will need to raise additional funds in order to meet the expenditures required for operating our business. However, if our estimate of the costs of identifying a target business, undertaking in-depth due diligence and negotiating an initial business combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our initial business combination. Moreover, we may need to obtain additional financing either to complete our initial business combination or because we become obligated to redeem a significant number of our public shares upon consummation of an initial business combination, in which case we may issue additional securities or incur debt in connection with such initial business combination. Subject to compliance with applicable securities laws, we would only complete such financing simultaneously with the completion of an initial business combination. If we are unable to complete an initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account. In addition, following our initial business combination, if cash on hand is insufficient, we may need to obtain additional financing in order to meet our obligations.

As of the date of this Quarterly Report, we are within 12 months of our mandatory liquidation date of February 26, 2023. In connection with our assessment of going concern considerations in accordance with ASU 2014-15, "Disclosures of Uncertainties about an Entity's Ability to Continue as a Going Concern," we anticipate the consummation of the Proposed Business Combination in the third quarter of 2022 alleviating the concern about our ability to continue as a going concern until the earlier of the consummation of an initial business combination or February 26, 2023, the date we are required to liquidate.

Although we believe that the Proposed Business Combination will occur, our liquidation requirement discussed in the preceding paragraph raises substantial doubt about our ability to continue as a going concern through one year from the date of these financial statements if the Proposed Business Combination is not consummated. Our unaudited condensed financial statements included elsewhere in this Quarterly Report do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should we be unable to continue as a going concern.

Off-Balance Sheet Arrangements

We did not have any off-balance sheet arrangements as of March 31, 2022.

Contractual Obligations

We do not have any long-term debt obligations, capital lease obligations, operating lease obligations, purchase obligations or other long-term liabilities, other than an agreement to pay the sponsor a monthly fee of \$10,000 for office space, utilities, secretarial support and administrative services. We began incurring these fees on February 23, 2021 and will continue to incur these fees monthly until the earlier of the completion of an initial business combination and our liquidation.

[Table of Contents](#)

The underwriters of the initial public offering are entitled to a deferred underwriting commission of \$0.35 per unit, or \$12,075,000 in the aggregate. Subject to the terms of the underwriting agreement, (i) the deferred underwriting commission was placed in the trust account and will be released to the underwriters only upon the completion of our initial business combination and (ii) the deferred underwriting commission will be waived by the underwriters in the event that we do not complete an initial business combination.

Critical Accounting Policies

The preparation of unaudited condensed financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following critical accounting policies.

Warrant Liabilities

We account for our public warrants and private placement warrants (collectively, the “warrants”, which are discussed in Note 3, Note 4 and Note 9 to the unaudited condensed financial statements included elsewhere in this Quarterly Report) in accordance with the Financial Accounting Standards Board’s (“FASB”) Accounting Standards Codification (“ASC”) Topic 815-40, “Derivatives and Hedging, Contracts in Entity’s Own Equity” (ASC “815-40”), and concluded that a provision in the warrant agreement related to certain tender or exchange offers precludes the warrants from being accounted for as components of equity. As the warrants meet the definition of a derivative as contemplated in ASC 815-40, the warrants are recorded as derivative liabilities and measured at fair value at inception (on the date of the initial public offering) and at each reporting date in accordance with FASB ASC Topic 820, “Fair Value Measurement”, with changes in fair value recognized in the statements of operations in the period of change.

Offering Costs Associated with the Initial Public Offering

We comply with the requirements of FASB ASC 340-10-S99-1. Offering costs consisted of legal, accounting, underwriting fees and other costs incurred through the initial public offering that were directly related to the initial public offering. Offering costs are allocated to the separable financial instruments issued in the initial public offering based on a relative fair value basis, compared to total proceeds received. Offering costs associated with warrant liabilities are expensed as incurred, presented as non-operating expenses in the statements of operations. Offering costs associated with the Class A ordinary shares were charged to temporary equity upon the completion of the initial public offering.

Class A Ordinary Shares Subject to Possible Redemption

All of the 34,500,000 Class A ordinary shares sold as part of the units in the initial public offering contain a redemption feature which allows for the redemption of such public shares in connection with our liquidation, if there is a shareholder vote or tender offer in connection with an initial business combination and in connection with certain amendments to our amended and restated memorandum and articles of association. In accordance with SEC and its staff’s guidance on redeemable equity instruments, which has been codified in ASC 480-10-S99, redemption provisions not solely within our control require ordinary shares subject to redemption to be classified outside of permanent equity. Ordinary liquidation events, which involve the redemption and liquidation of all of the entity’s equity instruments, are excluded from the provisions of FASB ASC 480. Accordingly, at March 31, 2022 and December 31, 2021, all Class A ordinary shares subject to possible redemption are presented at redemption value as temporary equity, outside of the shareholders’ deficit section of our balance sheets.

We recognize changes in redemption value immediately as they occur and adjust the carrying value of redeemable ordinary shares to equal the redemption value at the end of each reporting period. Increases or decreases in the carrying amount of redeemable ordinary shares are affected by charges against additional paid in capital and accumulated deficit.

Net Income (Loss) Per Ordinary Share

We comply with accounting and disclosure requirements of FASB ASC Topic 260, “Earnings Per Share”. Net income (loss) per share is computed by dividing net income (loss) by the weighted average number of ordinary shares outstanding during the period. We have two classes of shares, Class A ordinary shares and Class B ordinary shares. Earnings and losses are shared pro rata between the two classes of shares. We have not considered the effect of the 20,400,000 ordinary shares underlying the 11,500,000 warrants sold in the initial public offering and the 8,900,000 private placement warrants sold in the private placement, in the calculation of diluted income (loss) per share, since the exercise of the warrants is contingent upon the occurrence of future events. As a result, diluted net income (loss) per ordinary share is the same as basic net income (loss) per ordinary share for the period presented.

[Table of Contents](#)

Our statements of operations apply the two-class method in calculating net income (loss) per share. Basic and diluted net income (loss) per Class A ordinary share and Class B ordinary share is calculated by dividing net income (loss) attributable to us by the weighted average number of Class A ordinary shares and Class B ordinary shares outstanding, allocated proportionally to each class of shares.

Recent Accounting Standards

Management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on our financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information otherwise required under this item.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial and accounting officer or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

We do not expect that our disclosure controls and procedures will prevent all errors and all instances of fraud. Disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. Further, the design of disclosure controls and procedures must reflect the fact that there are resource constraints, and the benefits must be considered relative to their costs. Because of the inherent limitations in all disclosure controls and procedures, no evaluation of disclosure controls and procedures can provide absolute assurance that we have detected all our control deficiencies and instances of fraud, if any. The design of disclosure controls and procedures also is based partly on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial and accounting officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the fiscal quarter ended March 31, 2022. Based on this evaluation and in light of the material weakness in internal controls described below, our principal executive officer and principal financial and accounting officer have concluded that during the period covered by this Quarterly Report, our disclosure controls and procedures were not effective. Our internal control over financial reporting did not result in the proper accounting classification of Class A ordinary shares subject to possible redemption issued in February 2021 which, due to its impact on our unaudited condensed financial statements constitutes a material weakness in our internal control over financial reporting, related to accounting for complex financial instruments. In light of this material weakness, we performed additional analysis as deemed necessary to ensure that our unaudited condensed financial statements were prepared in accordance with U.S. generally accepted accounting principles. Accordingly, management believes that the unaudited condensed financial statements included in this Quarterly Report present fairly in all material respects our financial position, results of operations and cash flows for the period presented.

Changes in Internal Control over Financial Reporting

Other than as described above, during the fiscal quarter ended March 31, 2022, there has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. Management has identified a material weakness in internal controls related to the accounting for complex financial instruments issued in connection with our initial public offering, as described above. To respond to this material weakness, we have devoted, and plan to continue to devote, significant effort and resources to the remediation and improvement of our internal control over financial reporting. While we have processes to identify and appropriately apply applicable accounting requirements, we plan to enhance our system of evaluating and implementing the accounting standards that apply to our financial statements, including through enhanced analyses by our personnel and third-party professionals with whom we consult regarding complex accounting applications. The elements of our remediation plan can only be accomplished over time, and we can offer no assurance that these initiatives will ultimately have the intended effects.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

None.

Item 1A. Risk Factors.

Factors that could cause our actual results to differ materially from those in this Quarterly Report on Form 10-Q are any of the risks described in our 2021 Annual Report. Any of these factors could result in a significant or material adverse effect on our results of operations or financial condition. Additional risk factors not presently known to us or that we currently deem immaterial may also impair our business or results of operations. As of the date of this Quarterly Report on Form 10-Q, there have been no material changes to the risk factors disclosed in our 2021 Annual Report, except for the following amended and restated risk factor:

Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, including our ability to negotiate and complete our initial business combination, and results of operations.

We are subject to laws and regulations enacted by national, regional and local governments. In particular, we will be required to comply with certain SEC and other legal requirements. Compliance with, and monitoring of, applicable laws and regulations may be difficult, time consuming and costly. Those laws and regulations and their interpretation and application also may change from time to time and those changes could have a material adverse effect on our business, investments and results of operations. In addition, a failure to comply with applicable laws or regulations, as interpreted and applied, could have a material adverse effect on our business, including our ability to complete our initial business combination, and results of operations.

On March 30, 2022, the SEC issued proposed rules that would, among other items, impose additional disclosure requirements in business combination transactions involving SPACs and private operating companies; amend the financial statement requirements applicable to business combination transactions involving such companies; update and expand guidance regarding the general use of projections in SEC filings, as well as when projections are disclosed in connection with proposed business combination transactions; increase the potential liability of certain participants in proposed business combination transactions; and impact the extent to which SPACs could become subject to regulation under the Investment Company Act. These rules, if adopted, whether in the form proposed or in revised form, may materially adversely affect our business, including our ability to negotiate and complete our initial business combination and may increase the costs and time related thereto.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On December 31, 2020, we issued 7,187,500 founder shares to the sponsor for a total subscription price of \$25,000, or approximately \$0.003 per share, pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act. In February 2021, the sponsor transferred an aggregate of 75,000 founder shares to our independent directors. On February 23, 2021, we effected a recapitalization of 1,437,500 Class B ordinary shares, resulting in there being an aggregate of 8,625,000 founder shares issued and outstanding. No underwriting discounts or commissions were paid with respect to such issuances. On February 23, 2021, the underwriters exercised in full over-allotment option; accordingly, none of the founder shares were forfeited, resulting in an aggregate of 8,625,000 founder shares issued and outstanding.

On February 26, 2021, we consummated the initial public offering of 34,500,000 units, inclusive of 4,500,000 units sold to the underwriters upon the underwriters' election to fully exercise their over-allotment option at a price of \$10.00 per unit, generating total gross proceeds of \$345,000,000. Each unit consists of one Class A ordinary share, par value \$0.0001 per share, and one-third of one redeemable warrant, each whole warrant entitling the holder thereof to purchase one Class A ordinary share at an exercise price of \$11.50 per share, subject to adjustment. Each warrant will become exercisable on the later of 30 days after the consummation of our initial business combination or February 26, 2022, and will expire five years after the completion of our initial business combination, or earlier upon redemption or liquidation.

Cantor Fitzgerald & Co. acted as sole book-running manager of the initial public offering. The securities in the offering were registered under the Securities Act on registration statements on Form S-1 (File Nos. 333-252784 and 333-253428). The registration statements became effective on February 23, 2021.

Table of Contents

On February 26, 2021, simultaneously with the consummation of the initial public offering, we consummated the private placement warrant of an aggregate of 8,900,000 private placement warrants to the sponsor at a price of \$1.00 per private placement warrant, generating total proceeds of \$8,900,000. The issuance was made pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act. No underwriting discounts or commissions were paid with respect to the private placement warrant.

The private placement warrants are identical to the warrants included in the units sold in the initial public offering, except that if held by the initial purchasers or their permitted transferees, the underlying warrants (i) may be exercised on a cashless basis, at the holder's option and (ii) are not subject to redemption. If the private placement warrants are held by holders other than the initial purchasers or their permitted transferees, then the warrants included in the private placement warrants will be redeemable by us and exercisable by the holders on the same basis as the warrants included in the units sold in the initial public offering. In addition, the private placement warrants (and the securities underlying the private placement warrants) are not transferable, assignable or salable until 30 days after the completion of the Company's initial business combination, subject to certain limited exceptions.

We paid a total of \$6,900,000 in underwriting commissions (excluding the deferred underwriting commissions) and \$1,000,000 for other costs and expenses related to the initial public offering.

After deducting the underwriting discounts and commissions and the offering expenses, the total net proceeds from the initial public offering, including the full exercise of the over-allotment option, and the private placement warrant was \$346,000,000, of which \$345,000,000 was placed in the trust account.

For a description of the use of the proceeds generated in the initial public offering, see Part I, Item 2 of this Quarterly Report.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not Applicable.

Item 5. Other Information.

None.

Item 6. Exhibits.

The following exhibits are filed as part of, or incorporated by reference into, this Quarterly Report.

<u>Exhibit No.</u>	<u>Description of Exhibit</u>
2.1	<u>Amendment No. 1 to Business Combination Agreement, dated as of February 11, 2022, by and among the Company, TWMH, the TIG Entities, Alvarium, Umbrella Merger Sub and Umbrella (previously filed as an exhibit to the Company's Current Report on Form 8-K filed with the Securities and Exchange Commission on February 11, 2022 and incorporated by reference herein)</u>
3.1	<u>Amended and Restated Memorandum and Articles of Association of the Company, dated February 23, 2021 (previously filed as an exhibit to the Company's Current Report on Form 8-K filed with the Securities and Exchange Commission on March 1, 2021 and incorporated by reference herein)</u>

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

CARTESIAN GROWTH CORPORATION

Date: May 13, 2022

By: /s/ Peter Yu
Name: Peter Yu
Title: Chief Executive Officer
(Principal Executive Officer)

Date: May 13, 2022

By: /s/ Gregory Armstrong
Name: Gregory Armstrong
Title: Chief Financial Officer
(Principal Financial and Accounting Officer)

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO RULES 13a-14(a) AND 15(d)-14(a) UNDER THE SECURITIES EXCHANGE ACT OF 1934,
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Peter Yu, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Cartesian Growth Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of Cartesian Growth Corporation (the "Company") on Form 10-Q for the quarterly period ended March 31, 2022, as filed with the Securities and Exchange Commission (the "Report"), I, Peter Yu, Chief Executive Officer of the Company, certify, pursuant to 18 U.S.C. §1350, as added by §906 of the Sarbanes-Oxley Act of 2002, that:

1. The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
2. To my knowledge, the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company as of and for the period covered by the Report.
