Second Quarter 2024

Select Financial and Operating Metrics

- **Revenue** of \$49.5M decreased 4% YoY primarily due to a decrease in other income related to transactional fees. Management fees were essentially flat as fee reductions from businesses exited were compensated by the acquisition of East End, which contributed \$5M in the quarter. On a like for like basis, adjusting for the acquisitions and dispositions, total revenues would have been up 4% YoY. 99% of total revenues in the quarter were from recurring fees.
- **Total Operating Expenses** of \$64.4M were flat YoY and lower by \$1.1M compared to the previous quarter. Normalized operating expenses, which exclude non-cash compensation, expenses related to severance costs, depreciation and amortization, and certain transaction and deal-related expenses, were up slightly to \$46M YoY. Excluding East End, normalized operating expenses would have decreased 4% compared to the first quarter.
- **Other Income** of \$5.2M compared to \$25.7M in Q2 2023 as the prior year period included an unrealized gain on earn-out liabilities, compared to an unrealized loss in the current period. This decline was partially offset by lower impairment charges in the current year period, as well as gains on investments, compared to losses in the prior year period.
- **Adjusted EBITDA** of \$5.5 decreased YoY primarily due to lower transactional revenues from exited or restructured businesses.
- **Adjusted Net loss** was \$2.6M.
- **AUM/AUA** of \$71.9B, composed of Wealth Management \$55.9B and Strategic Alternatives \$16.0B.

Glossary

Assets Under Management and Assets Under Advisement. For financial presentation purposes, total assets under management and assets under advisement ("AUM/AUA") of AITI Global is calculated as set forth below:

AUM/AUA includes billable and non-billable assets. Billable assets represent the portion of assets on which we charge fees, including under co-investment arrangements. For the purpose of calculating co-investment assets, we include the gross asset value of all assets managed or supervised by operating partner subsidiaries, affiliates and joint ventures in which we hold either a majority or minority stake. Non-billable assets are exempt of fees. They consist of assets such as cash and cash equivalents, real estate, investment consulting assets and other designated assets.

Our AUM/AUA also includes the assets under management of each of our External Strategic Managers. External Strategic Managers are those managers in which the we have made an external investment, and the strategies of these managers include Real Estate Bridge Lending, European Long/Short Equity and Asian Credit and Special Situations.

Unless otherwise defined, AUM refers to assets on which a business provides continuous and regular billable supervisory or management services. As noted, our AUM/AUA includes the AUM of our external strategic managers as we believe including such AUM presents a more accurate depiction of the respective businesses. However, the AUM of the external strategic managers should not be viewed as part our AUM for regulatory and/or statutory purposes under the U.S. Investment Advisers Act of 1940, as amended.

Adjusted EBITDA. We use Adjusted EBITDA as a non-US GAAP measure to track our performance and assess our ability to service our borrowings. This is a non-US GAAP financial measure supplement and should be considered in addition to and not in lieu of, the results of operations, prepared in accordance with US GAAP. Adjusted EBITDA is derived from and reconciled to, but not equivalent to, its most directly comparable GAAP measure of net income (loss). Adjusted EBITDA represents adjusted net income plus (a) interest expense, net, (b) income tax expense, (c) adjusted income tax expense less income tax expense, and (d) depreciation and amortization expense.

Adjusted Net Income. We use Adjusted Net Income as a non-US GAAP measure to track our performance and assess our ability to service our borrowings. This is a non-US GAAP financial measure supplement and should be considered in addition to and not in lieu of, the results of operations, prepared in accordance with U.S. GAAP.

Adjusted Net Income represents net income (loss) before taxes plus (a) equity-settled share-based payments, (b) transaction-related costs, including professional fees, (c) impairment of equity method investments, (d) change in fair value of investment or other financial instruments, (e) onetime bonuses recorded in the statement of operations, (f) compensation expense related to the earn-in of certain variable interest entities, and (g) adjusted income tax expense.

Billable Assets. Represents the portion of our AUM/AUA on which we charge fees.

MFO. Multi-family office

Mgmt./Advisory Fees. Mgmt./Advisory fees represent fees recurring in nature, primarily management fees.

Impact Investing. Investment practices seeking to generate various levels of financial performance together with the generation of positive measurable environmental and social impacts.

Recurring revenues. Management/Advisory fees plus the management fee portion of distribution from investments.

UHNW. Ultra High Net Worth individuals are people with a net worth of at least \$30 million.

A description of the strategies is provided below:

Event-driven: The Event-driven strategy is based in New York. This strategy, which has \$2.1 billion of AUM as of June 30, 2024, focuses on 0-to-30-day events within the merger process. The investment team employs deep research on each situation in the portfolio with a focus on complex, hostile, up-for-sale situations where our primary research work can drive uncorrelated alpha. The research and investment process is focused on hard catalyst events and is not dependent on deal flow.

Real Estate Bridge Lending: The Real Estate Bridge Lending strategy is managed by an external manager based in Toronto and focuses on complex construction, term, and pre-development bridge loans throughout North America. The strategy has \$2.1 billion AUM as of June 30, 2024. The strategy's diversified portfolio primarily consists of first lien mortgages with little to no structural leverage. The team places an emphasis on risk management via rigorous underwriting consisting of borrower analysis, vetting, and extensive monitoring across all major real estate asset classes.

European Long Short Equities: The European Long Short Equities strategy is managed by an external manager based in London. The strategy has \$1.7 billion AUM as of June 30, 2024, and trades the portfolio actively and absolute return-oriented with a focus on financials, cyclical, and mining and minerals. The strategy is market agnostic and runs with a variable net exposure, equally comfortable net long or net short.

Asia Credit and Special Situations: The Asia Credit and Special Situations strategy is managed by an external manager based in Hong Kong. The strategy has \$1.4 billion AUM as of June 30, 2024, and includes performing, stressed, and distressed bonds and loans throughout the Asia Pacific region. The manager strives to capitalize on what it believes is an under-researched and inefficient market with limited competition and attractive levels of stressed and distressed activity.
